Allegations made by Mr Tait

Three notes

1 The supply of clothing at Govt cost to the menials of the Central College has been done away with on the recommendation of a body called the Retrenchment Committee, and the Lab^{y} attendants should be paid at a higher rate on this score and also in consideration of the fact that they do skilled work and that their clothes are destroyed with acids

In connection with the revision of the supply of clothing to the menial Establishments of all the departments of the State Govt issued a general order in May 1905 in which the menials of the Central College have been excluded from the list of menials entitled to clothing

x 9

2 On his recommendation for increase of pay to the Lab^{y} attendants he has

Mr Tait first proposed to meet the cost on account of the increase

Letter No 84 dated 31st July 1913 from the Principal Central College Bangalore to the Inspector General of Education in Mysore

I have the honour to request that you will be so good as to forward for the favourable consideration of Government the enclosed proposal for the revision of the menial establishment of the Central College and to submit the following reasons -

1 The object of this revision is to secure a suitable rate of pay for the Laboratory attendants in Physica and Chemistry whose work requires a much higher standard of intelligence than the work of most of those who are classed as menial servants The pay they now draw is little more than half what is drawn by men doing exactly the same work in Dr Coleman's Laboratory

2 Their clothes are destroyed by acids and as there is always the danger of broken glass in the Laboratory they have to provide themselves with shoes

3 Three attendants have between them to keep the new Physics building clean and to share the night watching in addition to getting ready the apparatus and the chemicals required for each lecture and each lesson in practical work Three attendants have to do the same work in the new chemistry building

4 Although the taking over of the new chemistry building adds about 3/5 to the size of the College it is not proposed to increase the average cost of the menial establishment The savings proposed are the abolition of two posts and the reducing of the pay of the waterman from Rs 8 to Rs 5-8-0 This waterman is properly speaking a cook who is allowed to use the kitchen in the College tiffin rooms It seems to me that he should not be paid at all as he has the use of a kitchen and makes a fair income by cooking for the students who do not live in the Hostel

5 I request that the scheme may be sanctioned from 1st July 1913 and that each of the 6 Laboratory attendants may be granted

a rise of Rs 1 on their present pay from 1st July 1913

D 2641

Proposed Revision of the Annual Establishment of the Central College

The Inspector-General of Education has requested me to "state for the information of Government why it is proposed to reduce the number of Physics Laboratory attendants from four to three, and whether if so reduced there will be no necessity to restore the present number in future"

I have replied that it is

Central College 10

4 Nov 1913

Dear Sir,

I mentioned to you at the end of July the subject of French & German at the Central College and as you agreed that it was desirable to provide instruction in these languages I sent up a proposal

The Government Order on the subject has just reached me (Letter No 4848/Edn 112-13-2 dated 21st Oct), and it is full of the most extraordinary misconceptions! The Inspector-General

and the First Councillor, it would appear, do not understand the subject ||

The letter says "I am directed to state that the Central College is not affiliated in the French or German Languages" I signed 2 certificates of two years instruction in French for Intermediate candidates in March last, and I shall sign probably half a dozen in March 1914, and yet Government knows nothing of it

Government, however, are prepared to support any proposal for starting instruction in German & French either in the Central College or in the Commercial School

Bangalore, Recorded &c"

The whole point of my letter was that instruction had been going on for years and that the number of students was increasing so quickly that an allowance should be given to the Instructor, and yet Government asks for a proposal for "starting" instruction

I think it is hardly fair to the Central College to couple it with an Institution which was recently, and still perhaps is, managed by a person who was dismissed from employment in the C & M Station by Mr F J Richards ICS

Yours sincerely

From

M SHAMA RAO Esq MA

Inspector General of Education in Mysore

To

C S Balasundaram Iyer Esq B A

Secretary to the Government of His Highness the Maharaja of Mysore Departments of Education and Agriculture

SIR

With reference to your letter No 4860/Edn 117-13-2 dated the 21st September 1913 requesting to be furnished with additional information regarding the menial establishment of the Central College I have the honour to submit herewith copies of correspondence between this office and the Principal on the subject

2. It is evident from the correspondence that the Principal utilised the services of one of the Physics Laboratory attendants as a night watchman and wants to abolish the place now as the work is shared by three other Physics Laboratory attendants With regard to the restoration of the present number of Physics Laboratory attendants I beg to invite attention to para 2 of the Principal's letter No 202 of the 10th instant in which he apparently can give no assurance for the future

I have the honour to be

Sir

DO No 213 D3060 Central College D O No 844

Edu 117-13
se at 3

Secretary to the Local Government Board for Ireland

24 Nov 1913

Dear Sir,

I request that you will be so good as to help us in a very urgent matter

The condition of the Laboratory Attendants of this College has been miserable ever since Government on the recommendation of a body, called the Retrenchment Committee cut off the clothing allowance which they had been receiving like them. Their rags contrasted with the palatial buildings in which they work seem to me highly disgraceful to this College, and the contrast would be even worse if I had not given them

clothing at my own expense more than once in the last few years

These men do skilled work and should be paid accordingly Their clothing is destroyed with acids and on that ground also they should be paid at a higher rate

In July I sent up a proposal to increase their pay without increasing the cost of the whole establishment Only a stroke of the pen (to give these poor wretches the proposed increase) was needed, but I have heard nothing from Government except a courteous enquiry whether my proposal is honestly made I regret to say that your colleagues or some of them have not dropped the style

which prevailed under the last
administration ||

(2)

The good faith of the Government
of Mysore is also concerned You
promised the University of Madras early
in 1913 among other things that You
would increase the pay of the Chemistry
Laboratory Attendants On the faith of
that promise, H.E the Governor of
Madras in Council granted affiliation
in Chemistry to the Central College No steps
have been taken to carry out that promise

I request that You will be
so good as to see that orders are
passed soon to remove this
reproach from the Central College
and to redeem the pledge

(24) given to H.E the Governor
in Council by the Government
of Singapore

Yours sincerely

Letter No 1920 R&P 178 dated the 23rd August 1913 from the Comptroller, Mysore Government, forwarding a proposition statement received from the Inspector-General of Education in Mysore on account of the revision of the scale of the menial establishment of the Central College, Bangalore and stating that the proposed revision results in saving of Rs 4 per annum in the permanent recurring expenditure

Order thereon No 7689 Edn 117-13 6

Dated Bangalore 9 2 1914

The proposed revision provides a small increase in the pay of the laboratory attendants but the extra cost is proposed to be met by the abolition of the posts of a laboratory attendant and a peon, and a reduction in the pay of the waterman The nett result will be a saving of Rs 4 per annum

Government are pleased to sanction the proposed revision with effect from the 1st July 1913 or subsequent date which the Inspector-General may consider suitable The existing and revised scales are given in the accompanying statement
